Warm Greetings and Good wishes to All

It gives me immense pleasure to welcome you all to the official website of the Karnataka State Retired Police Officers Welfare Association.

This website is an important step towards strengthening communication, unity and fellowship among our members.

After dedicating the prime years of our life to the service of the nation and the society, retirement marks the beginning of a new chapter—one in which our experience, knowledge and commitment can continue to make a meaningful contribution.

Through this website, we aim to provide our members useful information about the activities of the Association, important announcements, welfare initiatives other matters of common interest. It will also serve as a platform to keep our members connected and informed.

I sincerely hope that all our members make effective use of this digital platform and extend their valuable suggestion and co-operation for its further development.

Let us continue to uphold the values of service, integrity unity and brotherhood that have guided us throughout our professional service. I wish the association and all the members, continued good health, happiness & success.

(K.B. Bettegowda),
President.
